

Delivery

Delivery is available for a fee and is not included with the rental of any items.

Delivery includes drop off wherever our truck can back up to. Once truck is unloaded, items will not be brought inside, out back, or anywhere else unless specifically noted on the contract. Delivery fee does not include set up of any items. Additional labor to install or move equipment will be charged for, if the driver's schedule allows for it.

All equipment must be broken down and staked in an accessible location where delivery vehicle can back up to prior to pick up. Any items left scattered, installed, or out of sight will either be charged break down fees or additional rental and pick up fees, depending on the schedule of the driver.

Delivery is charged per mile with a 10 mile minimum from our store [276 N State St, Concord]. Unless otherwise noted, delivery is round trip and includes pick up after the rental period. Items added after the delivery truck has left our location will result in additional delivery fees.
